# GMS - AGS

## GMS CE Panel-PC

## Upgrade manual

## 1 Overview

The GmsCE program is easy to upgrade by using a USB memory stick. The stick is plugged into the Panel-PC and the user then starts the upgrade sequence.

## 2 Preparation

Prepare the USB stick by placing the new files in the folder \\GMS\Upgrade.

## 3 Upgrade

- Connect the memory stick to the USB port.
- The new files must be placed in the following directory on the memory stick, GMS\Upgrade.
- Press Upgrade button.
- Press the Start button.
- When the upgrade is finished, press Close button.

The program then exits and re-starts the GmsCE program.
